Seafood Dinner Social Coming in October

Do You Want to Be Your Club's **CHAMPION??**

It is time to take a little pride in our Country Club. After years of unsatisfactory participation in our club championship – we have raised the stakes. Not only will you be competing for a prize pool with added money, but a steak tip dinner will be included with your \$25.00 entry fee. Also, a place on the Championship Plaque will be earned by each division champion. A simplified, one-day format leaves you with a very easy decision to play. Men will play 27 holes. Women and seniors will play 18 holes. Dinner will cost \$15.00 for non-players. Hors d'oeuvres & Social hour will begin at 5:30pm with Dinner to follow at 6:30pm. Hors d'oeuvres will be complimentary.

****I challenge you to take advantage of this opportunity ****
Thanks...RK

As the Monday Night Couples season comes to an end, we want to extend a very big Thank You to each of the 50+ couples who participated at one time or another. We appreciate all who came out to socialize and, yes, play a little golf. Hope to see you all again in the spring of 2011!

-Bill & Deb Bomberg

Why Must We Wait For

FROST??

- 1) Frost is basically frozen dew that has crystallized on the grass, making it hard and brittle. A grass blade is actually 90 percent water, therefore it also freezes.
- 2) Walking on frost-covered greens causes the plant to break and cell walls to rupture, thereby losing its ability to function normally.
- 3) When damaged, the putting surface weakens and becomes more susceptible to disease and weeds.
- 4) One foursome can leave several hundred foot-prints on each green, causing extensive damage.
- 5) A short delay while the frost melts can preserve the quality of the greens and prevent needless repairs.
