2011 Projects:

The new bridge on hole #15 (first crossing) will soon be in process. We hope to be able to get the bridge installed without disturbing too much ground along the creek bed. The second crossing on hole #15 has already been replaced. The old (concrete path) second crossing will be removed allowing the creek to flow more smoothly.

Another tee box pod on hole #8 is reaching completion. It is located behind the new white (men's) tee and will measure about 180 yards to the center of the green. Topsoil will be put in place soon and will be ready for sod after some time is given for settling and compaction.

Also in the plans are some cosmetic changes with regard to the pump house on the back 9 located adjacent to the pond. We plan on residing and reroofing the building to match the new restroom and concession building.

We would like to welcome SCCC's newest hire and your Food & Beverage Manager, Josh Suda.

Josh has an extensive level of experience in both facets of our operation. He is an experienced barkeep and spent a lot of his time here last year helping out in the restaurant. He also loves the game of golf and has been a member for the last several years. We welcome him and look forward to some very positive changes in the clubhouse.
